

Amendments to the Claims

Claim 1 (Withdrawn): A method of manufacturing a shipping base, the method comprising:
gathering siding materials for recycling;
cleaning the siding materials of any siding connectors;
cutting the siding materials to pre-determined lengths; and
connecting the pre-determined lengths of siding materials to form a shipping base.

Claim 2 (Withdrawn): The method of manufacturing a shipping base of claim 1 further comprising:
drilling holes in the shipping base to secure a product.

Claim 3 (Withdrawn): A method of manufacturing a shipping base, the method comprising:
forming a plurality of boards from a plurality of particles secured together with a resin;
cutting the boards to pre-determined lengths; and
assembling the boards to make a shipping base.

Claim 4 (Withdrawn): The method of manufacturing a shipping base of claim 3 wherein the resin is polymeric methylene diphenyl diisocyanate.

Claim 5 (Withdrawn): The method of manufacturing a shipping base of claim 3 further comprising:
drilling holes in the shipping base to secure a product.

Claim 6 (Original): A shipping base for transporting products, the shipping base comprising:
a plurality of non-wooden boards assembled to accommodate a product to be shipped;
a piece of styrofoam secured to one or more of the non-wooden boards between the boards and
the product; and
a plurality of holes in the non-wooden boards to accommodate a portion of the product to be
shipped.
